FACILITIES OPERATIONS

- ***Administration***

A big Thanks for making the Holiday Luncheon Happen. We are grateful for everything.

- ***Building Services***

Recycling: has a new Work Study student worker: Don Maples, who will be helping handle requests. Patrick Call is a returning student worker who will be tracking and placing recycling bins throughout campus buildings.

A total of 6.5 tons from the Kentucky game were composted/recycled. That puts the total for the season at 62 tons. A HUGE thanks to everyone who made that possible.

We gave our last load of finished compost to Landscape Services this week. The UT Organic Farm got a huge load, and Landscape Services got 4 small truckloads of it.

We are making adjustments to our cardboard route. We replaced the large black boxes with dumpsters at the Vet School and Vol Hall. We'll be replacing three more next week and shifting to larger boxes at several locations to make the route more efficient.

- ***Landscape Services***

Wrap up leaves and irrigations systems winterization, Greenery set-ups for departmental graduations, topsoil/seed/straw around Sorority Village Parking overflow parking (at welcome center), dead tree removal, start tree trimming at Fraternity Park, mulching landscape

- ***Lock & Key Services***

Key Shop started first thing this morning on rekeying Architecture part of A & A and we will also be doing some rekeying for the new Humanities center moving into the first floor of Melrose E & F section

- ***RRT***

Moving Army to Hoskins and doing other work orders and getting ready to move Telefund from Stokely Athletic to Andy Holt Tower.
