Let’s Talk Trash.
Did you know...

- Every three months, Americans throw away enough aluminum in landfills to build our nation’s entire commercial air fleet. Please recycle your aluminum can!
- Almost half of all the food produced in the United States goes to waste—approximately 3,000 pounds per second. Please compost your food scraps!
- Most coffee cups are not recyclable. If for just one day, everyone used a personal mug we would save: 163,000 trees and divert 8.9 million pounds of waste from the landfill. Use a personal mug at any on-campus dining facility and receive 15% off of drip coffee and fountain drinks.

Recycling Reminders:

- Please sort the contents of your personal recycling bins in recycling stations located around the building.
- Do not throw glass or plastic bags in the green recycling bin—rather, bring those recyclables to the public drop-off at 2121 Stephenson Drive.
- Please dispose of towel paper towels in “paper towel compost” bins located in restrooms and in the break room.

Memorandum

To: All Facilities Services Employees
From: FS Communications & Public Relations
Date: January 30, 2017
Subject: Facilities Services Best Practices Page

A new page has been created on our Facilities Services website and it showcases our department’s best practices.

We created the page as a way to compile all of our documents that tell our department’s story and highlight the improvements and best practices we have implemented during the past few years.

The “Our Best Practices” page can be found at tiny.utk.edu/FSBestPractices or at the top of our right navigation menu on the Facilities website at fs.utk.edu.

Some of the items the page showcases include our annual reports, expanded and no-charge services guides, Sightlines, our best in-house practices, and reorganization information.

We invite everyone to take a few minutes to familiarize themselves with the department information we compiled on this page.

Any questions about this information can be directed to Brooke Krempa at bsteve14@utk.edu.
